

ABSTRACT OF THE DISCLOSURE

[0025] A bridge and adapter system for a bag-in-box packaging filler is shown to include an adapter providing a quick connection between the supply line and the dispensing member of the bag-in-box packaging. A bridge is adapted to sit longitudinally across the box of the bag-in-box packaging and is adapted to engage with both the adapter and the dispensing member of the bag-in-box packaging in order to provide support of the adapter and dispensing member, therein. The adapter includes air vents which facilitate the escape of air in the bag-in-box while it is being displaced with other contents from the supply line. The upper end portion of the adapter includes a cam lock for connecting the supply line.
